We at Mikado, pride ourselves one of the top suppliers and distributors of quality Electrical & Electronic Test & Measuring Instruments. We maintain our roster of products to include the most cutting edge Technology, and the latest innovations, to cater to all your needs in measuring electrical and electronic parameters from simple Valtometers to Oscilloscopes to High Voltage Testing Equipment. Our range of products, introduced over years, have been widely accepted for their excellent quality, accuracy and the value for money offers we have.

Siglent Digital Storage Oscilloscope SDS1202X-E Supplier

Description

Siglent’s SDS1202X-E Oscilloscope breaks yet another performance-to-price barrier! With features not available in most oscilloscopes at twice this price, it offers a higher bandwidth, processing speed, and, and FFT resolution than other scopes in this class.
The SDS1202X-E employs a new generation of SPO technology that provides excellent signal fidelity and performance. The system noise is also lower than similar products in the industry. It has a minimum vertical input range of 500 uV/div, an innovative digital trigger system with high sensitivity and low jitter, and a waveform capture rate of up to 400,000 frames / second (sequence mode). It also

employs a 256-level intensity grading display and a color-temperature mode not found in other oscilloscopes in this class. Serial bus trigger / decode comes standard. Mikado Electronics is the renowned company of Siglent Digital Storage Oscilloscope SDS1202X-E Supplier in Kolkata, India.
With a waveform memory of 14 MB, the FFT function contains an impressive 1 MPts.

Key Features

- * 200 MHz Bandwidth
- * 1 GSa/s Real-Time Sampling Rate
- * 14 MPts Waveform Memory
- * 500 uV/div Sensitivity
- * Maximum waveoform capture rate: 100,000 frames / second (Standard mode), 400,000 frames / sec (Sequence mode)
- * Serial bus decode & trigger: standard
- * Digital trigger provides low jitter
- * Intensity-Graded display / Color-Temperature display mode
- * Video triggering / HDTV
- * Cursors * Measurement functions
- * USB and LAN interfaces
- * 7″ (diagonal) display
- * Sequence trigger mode
- * History function
- * Secure erase feature
